

THE NATURAL SCHOOL FURNITURE COLLECTION

A photograph of two young women sitting on a blue cushioned bench inside a modern, minimalist wooden cabin. The cabin is situated in a lush forest with sunlight filtering through the trees. One woman is holding an open book, and the other is looking at it. The cabin has a simple wooden frame and a gabled roof. The background is filled with green foliage and trees.

Reinvent your learning space with natural design
that doesn't cost the Earth

MADE IN NZ

Built in our Nelson-Tasman factory and
tested down the road at
Ranzau School. lsg.co.nz/nzmade

ABOUT LEARNING SPACES GLOBAL

Our vision

To create excellence in learning environments to nurture and stimulate success in every child.

Our mission

Provide the education sector with furniture designed and constructed using cutting-edge innovations and trends that facilitate Educators and Children to get the best out of every day.

- LSG designs and manufactures an extensive range of naturally inspired timber furniture for both indoor and outdoor learning environments.
- Proudly family-owned and operated since 2006, LSG is based in Redwood Valley, Nelson-Tasman, New Zealand.
- While visitors are welcome at the Redwood Valley location, LSG also offers the convenience of an Auckland-based sales and service team, providing support for new centre designs nationwide.
- All LSG products are backed by a 'Lifetime Service Guarantee', ensuring long-term value and reliability.
- LSG's industry-leading furniture, crafted from natural timber, is purposefully designed to foster a calm, welcoming, and enriching learning environment.
- The open framework of LSG's furniture promotes optimal airflow and enhances spaces with natural light, creating a healthier and more inspiring learning atmosphere.
- All furniture is delivered fully assembled, ensuring a seamless and hassle-free setup experience.
- We manufacture our premium furniture in our Redwood Valley factory from FSC and CARB 2 certified European Birch Plywood panel

OUR 4D PROCESS FOR NEW SCHOOLS AND UPGRADES

1. DISCOVERY

At the discovery meeting, we listen to you and discuss the design brief to learn all about what your dreams and inspirations are for your new project.

- Connection - The Learning Philosophy and your connection with the natural environments and history around your local surroundings. What is important for the Tamariki.
- Design ideas - Discuss likes and dislikes with furnishing and show 'n' tell with ideas from learning environments around the globe. Discuss areas that require design and equipment, including indoor and outdoor learning environments.
- Themes and Schemes - Discuss mood board for themes and colour/style preferences.
- Budget - Discuss furnishing budget to ensure our concept plan works for you.

2. DEVELOPMENT

Meet with key stakeholders to view the 3D walkthrough design draft and ensure we are on track with what was outlined in the discovery meeting.

- View 3D virtual walkthrough of inside your learning spaces with draft layout concepts.
- Make a list of amendments and alterations to design.
- Discuss general project updates on the timeframe and budget.

3. DECISION

Meet with key stakeholders and decision makers to discuss the final 3D virtual plans and pricing proposal, which is sent after the development meeting has been actioned.

- Confirm your furniture order and schedule production.
- Confirm estimated delivery and install dates.

4. DELIVERY

Arrange delivery and installation order to desired location.

- Deliver your furniture and setup as per design brief.
- Final inspection and sign-off.

MAKE FURNISHING YOUR SPACES A WALK IN THE PARK

Capture your school's culture and vision with our inhouse interior designer.

Plan effective layouts to optimise multiple learning styles and activities.

Ensure everyone is on board with a virtual walk-through of your spaces.

Your furniture is made at LSG, with larger items built onsite.

Add teaching resources and get ready for open day!

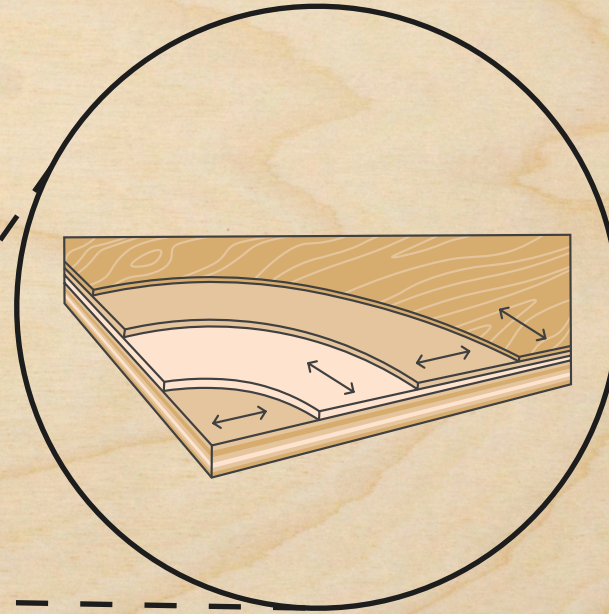

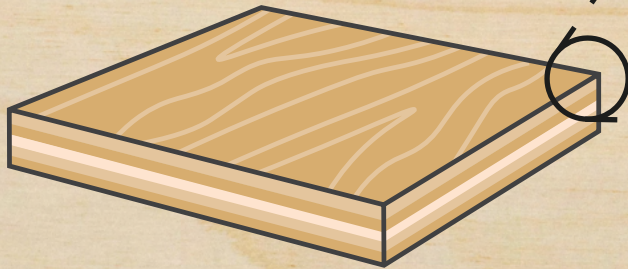

Enjoy engaging new learning spaces designed to welcome success.

BIRCH PLYWOOD IS THE FUTURE

European birch plywood is made by bonding layers of birch veneer together with adhesive.

The layers are stacked with their wood grains alternating at right angles, providing excellent strength and stability.

High-quality adhesive, WBP glue (water and boil proof glue). These adhesives ensure strong bonding suitable for various demanding applications.

European birch plywood is valued for its durability, smooth surface, and attractive appearance. Perfect for that high-quality finish and reliable performance.

- Birch plywood is environmentally friendly, made from thin birch veneer layers with non-toxic adhesives. It's durable, with a 35 year lifespan, and is sourced from sustainable forests
- Birchwood ply is significantly stronger more durable than MDF and particle board. It will not only last longer but it's ideal for high-use environments.
- Unlike MDF and particle board, Birch plywood resists moisture. Reducing the risk of swelling, warping, and structural damage over time.
- Sourced from sustainable forests, Birch plywood has a lower environmental impact and doesn't emit harmful chemicals like MDF and particle board.

LSG ROOM PLANNING

Enhance your next project with Learning Spaces Global:

✔ Beautifully-furnished 3D renders

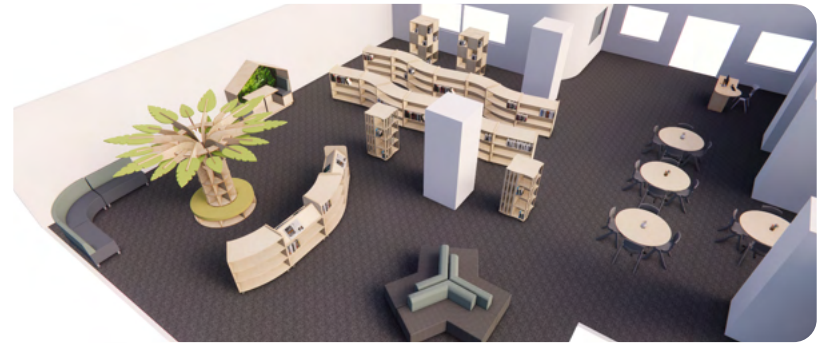

✔ Itemised 2D floor plan

✔ Budgeted quotation

In the good old days, anyone handy with a hammer could find the time to knock up some children's furniture. We transcend this willing attitude with a love of developing quality furniture created for today's modern learning environments. Market-leading features, carefully selected materials, forward-thinking design and first-class customer care, allow us to build premium, made to order furniture for your brand new centre direct to you from our Nelson workshop.

A well-planned furniture layout provides optimum learning space functionality within budget and time constraints. We maximise storage efficiency, visibility for supervision and 'elbow' room for cohesive flow. From your architecturally designed floor plans, we will create beautiful 3D renders for you to visualise your learning centre fully furnished and ready for its open day.

NATURAL DESIGN

DESCRIBED AS THE FUTURE OF DESIGN

Natural design (bringing the outdoors in) has been proven to reduce stress, enhance creativity and clarity of thought and improve our wellbeing. By incorporating natural elements teachers and students alike gain head space and feel like they have their own place to settle, explore and be creative. This has endless benefits as it gives teachers the opportunity to build stronger relationships with students, gifting the students with optimal learning experiences daily. Nature itself is an essential aspect of a student's learning and development from day one, as it is inborn in our beings. Our environment delivers physical and memorable experiences that nothing else can. LSG provides that missing link between nature and educational environments stimulating positive effects on development, health, and well-being. Psychologists have even found that simply adding plants to your office can increase well-being by 47%, creativity by 45%, and workplace productivity by 38%.

TESTIMONIALS

Gulf Harbour Primary, Auckland

"Our library transformation has been a game changer for our school. We wanted a calm, modern and flexible space that could support everything from quiet reading to group learning, and LSG truly brought that vision to life. From the very first meeting, the team listened carefully to our needs and offered creative, tailored solutions. Their professionalism, responsiveness, and attention to detail made the entire process feel like a true partnership. The end result is not only stunning, but incredibly functional for our students and staff.

The feedback has been overwhelmingly positive. Our students absolutely love the cosy book nooks and the revamped lighthouse, it's now one of their favourite places in the school. Staff have noticed how calm and organised the space feels too. We couldn't be happier."

Kate Shevland, Gulf Harbour School

Birkenhead Primary

"Our library is the hub of literacy at our school, and we wanted a calm, modern space that truly celebrated reading. LSG brought that vision to life with thoughtful, functional design that let the books shine. Working with Tony and the team was seamless, from concept to installation, they listened, collaborated, and delivered.

The result is a space our ākonga love. It's full every lunchtime and has become one of the most valued spots in the school."

Sarah Bassett, Birkenhead Primary school

TAKAPUNA NORMAL INTERMEDIATE SCHOOL

"When we set out to refurbish the TNIS library, our aim was to make the most of the generous space we had and transform it into a modern, inviting, and aesthetically beautiful area. LSG helped us achieve exactly that. Their stunning natural timber Acoustic Learning Tree is now the centrepiece of the room, and it's beautifully complemented by curved mobile book stations, display towers, custom furniture, and soft seating.

Tony and the LSG team were incredibly helpful throughout the entire process. They listened to our ideas, provided 3D layouts so we could visualise the space, and kept us informed every step of the way, from design to delivery and assembly.

The feedback from both students and staff has been fantastic. Everyone loves the new space, and I often remind them how lucky we are to have such a beautiful, functional library here at TNIS."

Katriona Oliver, Takapuna Normal Intermediate

Treedom BY LSG

Enhance your space, create an amazing place for people to study, learn and feel safe.

i Pages 51 and 52

Treedom by LSG introduces biophilic design elements into educational environments, fostering a connection with nature that enhances student well-being, creativity, and productivity. Their tree-inspired products serve as functional art pieces, transforming learning spaces into calming, inclusive, and collaborative areas.

The Acoustic Learning Tree, Treedom Model 2, and Treedom Model 3 by LSG transform learning spaces with natural design and sound-absorbing elements. The Acoustic Learning Tree enhances quiet zones by reducing noise and fostering a calm, focused environment. Treedom Model 2 serves as a collaborative hub, creating a warm, inclusive space for students to gather and connect. Treedom Model 3 mimics the experience of reading under a tree, integrating European birch plywood and acoustic felt to promote comfort, creativity, and well-being.

Together, these tree-inspired designs bring the outdoors in, making educational spaces more engaging, supportive, and serene.

YOU DREAM IT, WE BUILD IT

Transform your learning space with our customisable New Zealand Made timber furniture range. We can also build you a bespoke piece that reflects your school's vision, cultures, values, colours and logo.

- CAD design, 3D render, build and delivery
- Play, storage, soft seating, tables and more
- Computer cut timber engraving
- Custom colours and laminates

Make it Happen

Visit our website lsg.co.nz for more information

LIBRARY

Perfect for MLE or ILE environments. Join the sofas together or separate to create breakout spaces.

Reading area with Acoustic Learning Tree and storage capacity.

Book Display tower for flexible bulk book storage on all four sides.

Birch plywood book display storage doubles as a partition to separate your learning spaces.

Book display storage units with large capacity and extra storage underneath.

Bean Bags offer a relaxed seating option for students to have time out and recharge.

LIBRARY INSPIRATION

Create Semi-Collaborative zones with banquette booth seating. Bring Nature in with plants for calm and creativity.

Creating a calm library setting for children is crucial. In today's learning environment, libraries are a fully resourced learning space, the heart of every school. Opting for natural tones and furniture in this space enhances the atmosphere, promoting a safe space away from the hustle and bustle of

the classroom. Natural tones create a sense of comfort and well-being in the library, for the sanctuary like feel. This sets children free to engage fully with books and encourages focus and exploration. Nurturing a lifelong passion for literature.

**"NO MDF OR PARTICLE BOARD.
JUST SUSTAINABLE, LONG-LASTING
MATERIALS THAT PERFORM."**

CLASSROOM

Rise Up Desk blending ergonomic design, durable construction, and natural materials to support student well-being and focus.

Single Student Desk provides comfort for long study sessions, with an optimal height for sitting posture.

Stackable 4D Sled Base Chair with enhanced chair stability.

Customisable Front of class whiteboard unit. Perfect for teacher led classrooms with integrated storage and a large whiteboard.

Single Student Desk is also perfect for dynamic group tasks, this desk adapts and can be moved to suit your classroom needs.

High backless stool for flexible seating for students who prefer to learn sitting up high.

CLASSROOM INSPIRATION

Kaha High Table is designed to meet the needs of a dynamic learning environment.

A calm, cohesive classroom design enhances learning in a single-cell setting. These traditional classrooms benefit from natural finishes and a soft colour palette to create a peaceful learning environment. The addition of thoughtful, well-placed furniture helps minimise clutter and promote focus. This calm

setting supports student well-being while encouraging connection with the teacher and classmates. A nurturing space that helps children feel settled, safe, and ready to learn.

**“WOODEN SURFACES ABSORB MORE
SOUND THAN METAL OR PLASTIC**

HELLO, QUIETER CLASSROOMS!”

CLASSROOM

Customisable Front of class whiteboard unit.
Perfect for teacher led classrooms with
integrated storage and a large whiteboard.

4D Sled Base Chair with enhanced
chair stability.

Tote-tray storage and castor wheels
for flexible spaces. Perfect organizer
for a cluttered space.

Campfire style collaborative
seating with the Chillax sofas
and High Tables.

CLASSROOM INSPIRATION

Kaha Tables promote flexibility in learning and give students the choice of how they prefer to learn.

In a front-facing, teacher-led classroom, clear structure and visual focus are vital. Using natural materials and warm tones helps soften the layout and bring balance to a more formal setting. The design supports direct instruction while creating a welcoming and grounded atmosphere. Calm surroundings support

engagement, helping students feel centred and ready to absorb information. It's a space that values clarity while still feeling personal and inviting.

**"OUR FINISHES ARE LOW-VOC
AND CHILD-SAFE, MEANING
HEALTHIER INDOOR AIR."**

CLASSROOM

Kaha semi-circle for kids that like to learn in a different position and change throughout the day

4D Sled Base Chair with enhanced chair stability.

Rise Up Desk blending ergonomic design, durable construction, and natural materials to support student well-being and focus.

Kaha Tables promote flexibility in learning and give students the choice of how they prefer to learn.

CLASSROOM INSPIRATION

Glide n Tilt Tote Tray system for storage and organisation

High backless stool for flexible seating for students who prefer to learn sitting up high.

Blending movement with collaboration, this classroom layout supports flexible learning styles. Rise-up desks and tall tables at the back allow for active, independent work, while front pods encourage small-group collaboration and connection. Natural materials and a cohesive palette tie the zones together, creating harmony across varied setups. This multi-use space nurtures self-

direction and group engagement equally, helping students shift comfortably between different modes of learning. It's a modern classroom that adapts to the child, not the other way around.

"DID YOU KNOW?"

NATURAL TONES CAN REDUCE STRESS AND HELP STUDENTS CONCENTRATE LONGER."

SCIENCE SPACE

Stainless Steel Benches integrate tote-tray storage for optimum storage efficiency.

Stainless Steel Table for high durability and easy clean.

Dual access storage island partition with tote-tray storage and castor wheels for flexible spaces.

High backless stool for flexible seating for students who prefer to learn sitting up high.

SCIENCE SPACE INSPIRATION

Group instruction area with teachers caddy.

Ergonomic Ako Chair supporting movement for ultimate comfort and concentration.

Designing a dedicated science space that sparks curiosity is key. In modern learning, these environments are active laboratories of discovery and experimentation. Incorporating natural textures, durable surfaces, and flexible furniture creates a sense of order and calm, making the space both practical

and inspiring. A well-balanced science area invites students to question, explore, and investigate in a way that feels grounded and safe. It fosters critical thinking while supporting hands-on, inquiry-based learning.

"DID YOU KNOW?"

**MODULAR FURNITURE HELPS
NEURODIVERSE STUDENTS FIND
SPACES THAT FIT THEIR NEEDS."**

ART ROOM

High Tables to promote flexibility in learning and give students the choice of how they prefer to learn.

Whiteboard Teacher Station integrating storage and a large whiteboard.

Dual access storage island partition with tote-tray storage and castor wheels for flexible spaces.

ART ROOM INSPIRATION

Teacher Hub with large castor wheels for mobility and features a drawer and lockable cupboard storage

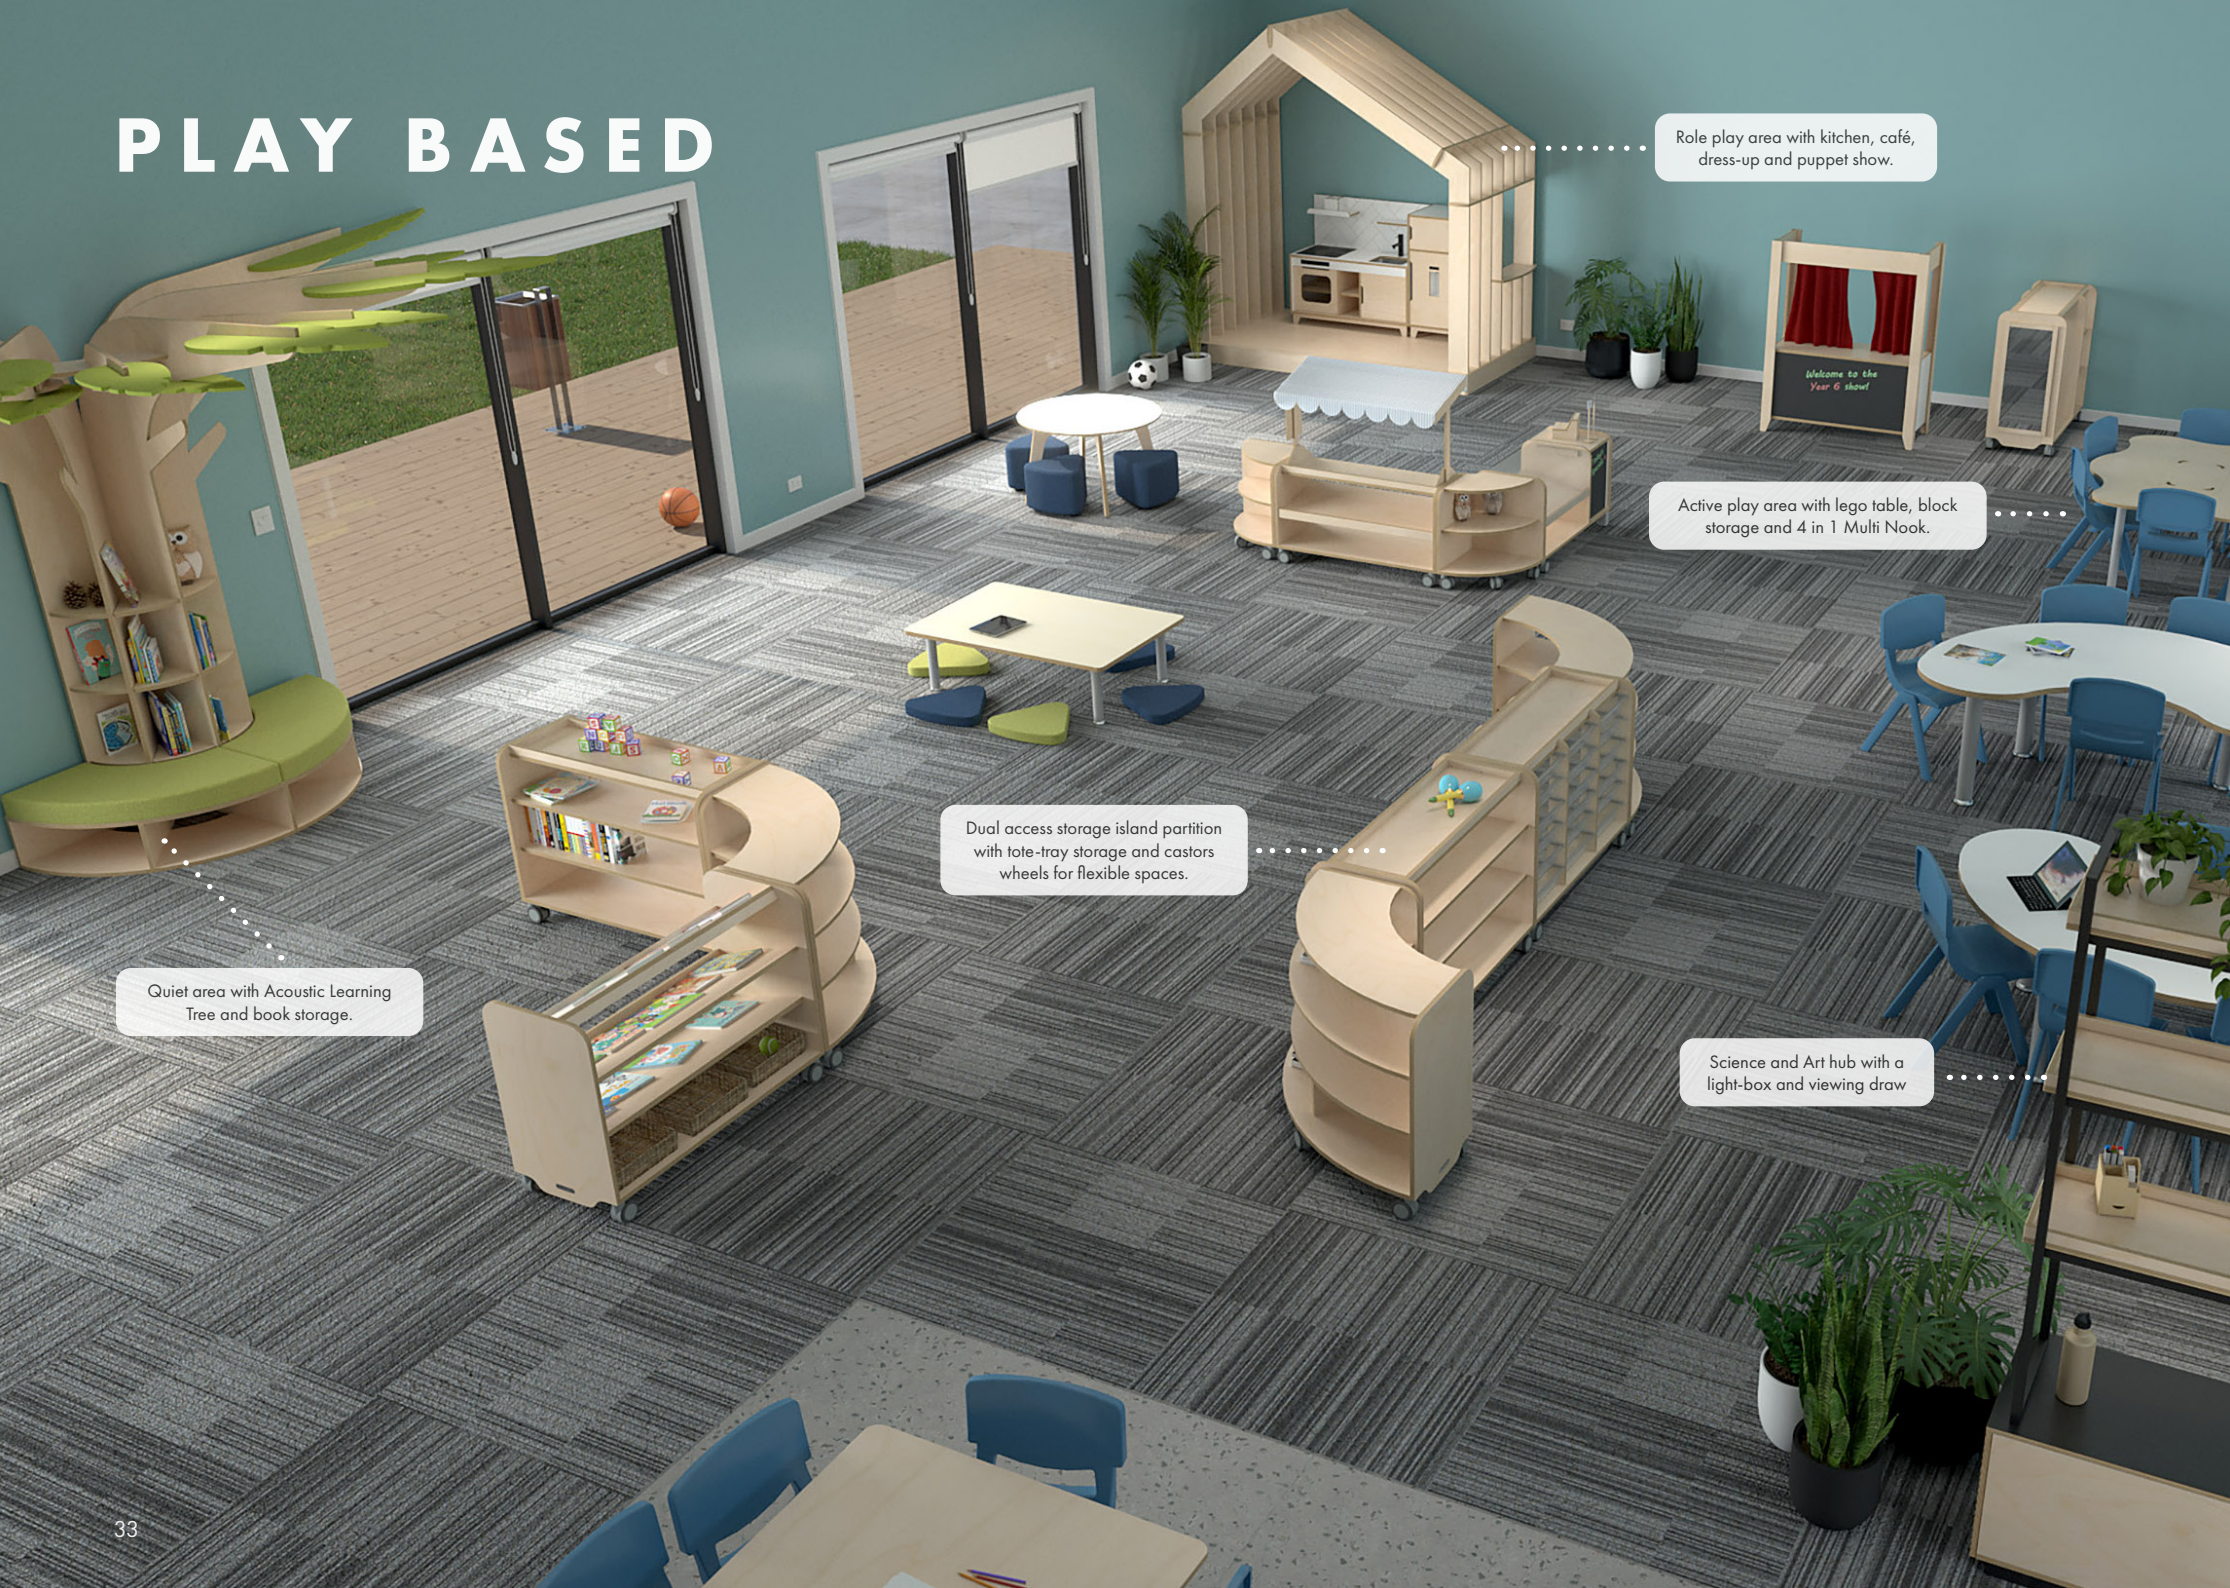

Creating a nurturing art room environment is essential for creative exploration. In today's learning landscape, art spaces are more than just rooms with materials—they are hubs of expression and individuality. Using soft, natural colours and inviting furniture helps create a calm,

inspiring atmosphere that encourages children to take creative risks and express themselves freely. The warm tones and thoughtful layout support focus while also allowing for spontaneity. It's a space where imagination is celebrated, and every child feels safe to create.

"BIRCH PLYWOOD HAS A SUPERIOR STRENGTH-TO-WEIGHT RATIO."

PLAY BASED

Quiet area with Acoustic Learning Tree and book storage.

Dual access storage island partition with tote-tray storage and castors wheels for flexible spaces.

Role play area with kitchen, café, dress-up and puppet show.

Active play area with lego table, block storage and 4 in 1 Multi Nook.

Science and Art hub with a light-box and viewing draw

PLAY BASED INSPIRATION

Provide an environment that supports a smooth transition from early childhood to school by incorporating learning through play. As young pupils transition into school life, the need to learn how to self-manage, cooperate, and collaborate is paramount. Arrange your space with multifaceted furnishings that are easy to move and offer a range of configurations and sufficient space for movement. Child-friendly, easy access and age-

appropriate with plenty of visible storage that is easily accessible. Quality long-lasting materials and natural colours provide a cohesive aesthetic look over the whole learning space.

**“GOOD DESIGN INFLUENCES
BEHAVIOUR. NATURAL SPACES LIFT
ENGAGEMENT AND WELLBEING.”**

OPEN PLAN

Quiet space Carrel Tables and Device Storage.

Reading area with Acoustic Learning Tree and book storage.

Dual access storage island partition with tote-tray storage and castors wheels for flexible spaces.

Group instruction area with Teachers Caddy.

Adjustable height KAHHA Kidney Tables are ideal for teacher/student engagement.

StudiChair with optional padded cushions.

OPEN PLAN INSPIRATION

Breakout space with Café Booth Seating.

Our flexible middle years classroom space is modular and adjustable, with movable furniture, versatile seating arrangements, and multi-purpose areas. This allows teachers to create different learning zones; such as group workspaces, independent study areas, and quiet zones for focused work. Students have the freedom to choose the best setting that suits their individual learning preferences and needs.

Providing a variety of learning spaces empowers students to take greater ownership of their education. A greater degree of personalised and engaging learning prepares students for the challenges of higher education and the working careers. Natural tones help contribute to a peaceful, focused, and aesthetically pleasing learning environment that enhances the overall educational experience for students.

**“INVESTING IN NATURAL MATERIALS
IS AN INVESTMENT IN STUDENT
WELLBEING AND LONG-TERM VALUE.”**

STEAM SPACE

Art area with Peggo® wall, and stainless steel make and do table and bins.

C hillax Sofa setting with matching standing height Kaha tables.

Whiteboard Teachers Station with laptop shelf and tote-tray storage and open shelves.

StudiNook With Peggo® Walls and customisable vinyl back drop.

Splash Lego Table paired with kneeling cushions = organised construction.

STEAM INSPIRATION

Discovery area with lightbox and viewing window, and tote-tray units.

Messy activity area with standing table option.

Create a STEAM environment that sparks critical thinking, problem-solving, communication, and collaboration. The focus of STEAM education is providing children with experiential learning. Therefore, you should have a space that is devoted to observation and experimentation. Kids should have a sense that it is okay to make a mess while constructing robots or exploring through science experiments. Perfectly clinical learning environments spoil the essence of STEAM learning. Provide the balance with amply natural timber storage.

Students will only be able to use their analytical skills to their highest level when they are comfortable while engaging in STEAM learning. So STEAM furniture needs to be ergonomic and flexible in layout. Collaborative soft-seating, modular table layouts that accommodate both sitting and standing should be a necessity, rather than a luxury in the classroom. With tablets being effective at teaching STEM concepts it is important to cater for tidy storage and quick and convenient charging of multiple devices when not in use.

**BIRCH PLYWOOD HAS A LOWER
ECO FOOTPRINT THAN MDF OR
PARTICLEBOARD**

SOFT SEATING

Comfortable, nature-inspired seating for enhancing focused learning environments.

This unit features an oversized storage cubbies for display, books, puzzles and other resources. Can also be fitted with drawers or tray runners for use with our glide and tilt tray system with high quality castor wheels. Includes squab cushion.

355W x 360D x 540H

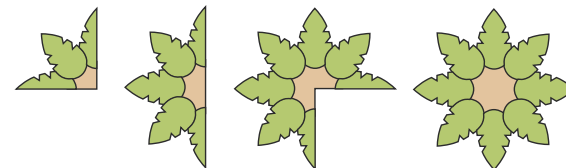

Acoustic Learning Tree

The Acoustic Learning Tree is a free-standing centerpiece crafted from natural European birch plywood, merging nature-inspired design with functionality. Its curved wooden branches with soft, green acoustic leaves absorb noise, creating a peaceful environment. A built-in upholstered seat with storage compartments below offers comfort and practicality. Available in full or half configurations, it is perfect for classrooms, libraries, and collaborative spaces, promoting focus, creativity, and well-being.

Available in Quarter, Half, 3 Quarter and full configurations

Treedom Model 2

The Treedom Model 2 is a beautifully designed, free-standing acoustic tree crafted from natural European birch plywood, blending nature-inspired aesthetics with functionality. Its flowing, curved wooden branches with soft, green acoustic leaves reduce ambient noise, creating a calming atmosphere. A circular upholstered seat with textured fabric offers comfortable seating, while open storage compartments beneath provide space for books, bags, or classroom materials. Ideal for learning environments, libraries, and collaborative spaces, the Treedom Model 2 combines natural materials with practical design to foster focus, creativity, and well-being.

i Available in Half and full configurations

Biophilic Tree design brings the outdoors indoors to enhance the natural learning environment and helps children connect with our natural surroundings.

Promotes collaboration, togetherness and unity, and provides a 'Go to place' for those needing support.

Treedom Model 3

The Treedom Model 3 is a stunning, free-standing acoustic tree crafted from natural European birch plywood, blending nature-inspired design with functionality. Its broad, green acoustic leaves soften noise, creating a peaceful space for learning and collaboration. A spacious circular table with integrated power outlets surrounds the tree, providing a practical hub for study, meetings, or group work. Complete with open storage compartments, it is perfect for classrooms, libraries, and shared workspaces, promoting focus, connection, and creativity.

Power outlets and USB power to allow for device charging flush mounted in a vertical surface for easy and safe usage.

Purematte high Performance HPL benchtop, scratch, stain resistant, chemical resistant, food grade, anti-fingerprint and bacterial technology

Reduces harsh noises from reverb around the large open spaces, ideal for quiet zones, ILE areas, libraries, and collaboration spaces.

Encourages a greater sense of wellness and calmness amidst overstimulated environments and spaces.

TABLES & CHAIRS

Ergonomically designed, durable furniture crafted from premium natural materials.

Learning Spaces Global furniture size guide

To maximize concentration and student engagement, classrooms require purpose-designed furniture that is precisely tailored to the student's age, ergonomic needs, and durability.

Our size guide simplifies the process of selecting optimal table and chair heights for each student year group. This ensures superior ergonomic comfort, enhancing learning outcomes significantly.

Feel free to reach out for expert advice and further assistance as needed.

Notes:

To ensure optimal concentration and student engagement, classrooms require purpose-built furniture that is tailored to the student's age, ergonomic needs, and durability.

Selecting the right height table and chair for each student year group is now effortless with our user-friendly sizing guide. This helps match and size appropriate chairs with complementary table heights, promoting superior ergonomic comfort and enhancing learning outcomes. Additionally we offer adjustable height steel table legs (perfect for flexibility and mobility in your space) and we also have a larger size 8 height option available if required for taller pupils.

If you need assistance determining your specific size requirements or require further guidance, please reach out to us without hesitation. We're here to support you.

KAHA TABLE. MULTIPLE LAYERS OF REAL TIMBER.

Our Kaha range has turned the tables on traditional table tops made from cheap MDF substrate and low pressure laminate (LPL) to provide you with the best in class and value. And as we produce our own high pressure laminate plywood panel in-house we can provide your school with specification found in high-end commercial furniture at a fraction of the cost.

Now you can enjoy the beauty of solid 18mm European birch plywood. It is stronger than MDF, with superior fire and water damage resistance properties and can be custom cut into any shape desired as there is no need for edge banding.

MADE TO MOVE AND CONNECT

- Nest tables together to create unique collaboration spaces
- Kaha table tops can be custom cut into any shape or size
- Height adjustable legs for flexibility age and activity usage
- Two legs on castor wheels for easy movement
- Choose from woodgrain, whiteboard and a range of high pressure laminate colour choices to match our storage and seating furniture

1. TABLE SURFACE

All plywood tables available in whiteboard, timber grain and white high-pressure laminates (HPL).

Kaha Link Table

Designed to accommodate smaller and larger groups, the link table allows you to adapt your learning space as you teach. Joins with our 1050 round table

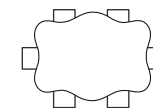

1500 x 900. Seats 4-6 per table.

Kaha Splash Table

Evenly allocated personal work areas. Splash encourages creative thinking in any environment! Optional lego top available on KAHA tables.

1500 x 1200. Seats 4-6.

SINGLE CELL CLASSROOMS

The classic, reimagined. Built to last. Designed to lead.

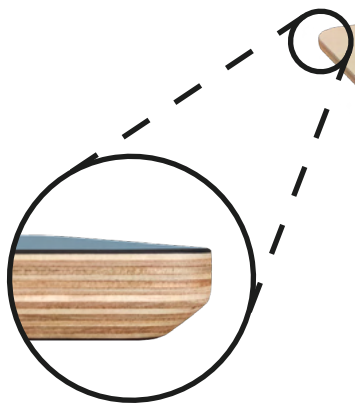

If you're going with the traditional student desk, go with the one that's built to stand the test of time. Our Single Student Desk pairs the enduring familiarity of a classic shape with the unmatched durability of a Birch Ply top, a premium upgrade from standard MDF and particleboard options. When longevity, resilience, and style matter, this is the desk that delivers.

SINGLE STUDENT DESK

Why settle for ordinary when your students deserve extraordinary?

This is the desk that respects tradition, embraces innovation, and is proudly built for the unique demands of New Zealand schools.

Subtle Sophistication

The shark nose bevelled edge adds a refined, modern touch, a small detail that makes a big visual difference. The result is a desk that feels both classic and fresh, sturdy yet sleek.

A Smart Fit for Today's Teaching

With the renewed emphasis on teacher-directed instruction under Aotearoa's new literacy and numeracy standards, this desk provides the dependable, individual work zone students need to focus. Its defined space supports structure, clarity, and a strong learning routine.

Built Tough for the Classroom

Crafted with a high-pressure laminate (HPL) finish, the surface shrugs off scratches, pen marks, and day-to-day wear. The Birch Ply core doesn't just last longer, it looks better too, with a natural grain that adds warmth and visual interest to your learning spaces.

Optional Adjustable Height

Whether used individually or in shared spaces, this desk seamlessly fits into any classroom or study area.

750L x 600W. Seats 1 per table.

Collaborate When You Need It

Whether it's a focused lesson or a dynamic group task, this desk adapts. Easily cluster them into pods of four or six to create vibrant collaboration zones — flexible enough to suit any pedagogy, any day.

RISE UP DESK

Stand up. Sit down. Stay engaged.

When flexibility matters, choose a desk that moves with your students. The Rise Up Desk brings sit-to-stand functionality into the classroom, blending ergonomic design, durable construction, and natural materials to support student well-being and focus.

Built for Movement, Made to Last

With a premium Birch Ply top and a smooth pneumatic lift, this desk allows learners to shift from sitting to standing in seconds, encouraging posture changes, better concentration, and more active engagement. Its height range (747mm–1132mm) gives students the freedom to find the position that works best for them.

Designed for Dynamic Classrooms

Whether it's a focused writing session or a collaborative activity, the Rise Up Desk adapts. Use it individually as a personal workspace or group several together to form flexible learning zones. It's ideal for neurodiverse learners, fidgety minds, and anyone who benefits from a little more movement in their day.

RISE UP DESK

Subtle, Sophisticated, and Student-Friendly

Sleek, simple, and thoughtfully designed, this is a desk that helps students take ownership of their learning space, encouraging independence, movement, and comfort all in one.

Why choose a static desk in a world that's always moving? The Rise Up Desk is your step toward healthier, more inclusive classrooms, designed to move with your students, and made to stand the test of time.

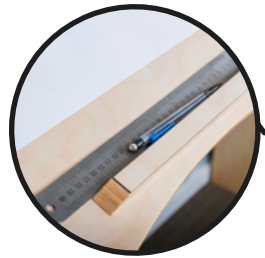

Natural Beauty, Everyday Durability

Crafted from natural European Birch plywood, the Rise Up Desk brings the warmth and texture of real wood into the classroom, while standing up to everyday wear and tear. Its compact footprint and clean design make it a smart addition to both modern and traditional learning environments.

Tilt Feature

Available with an adjustable tilting desktop, ideal for reading, writing, sketching, or posture variation throughout the day. With a simple adjustment, students can angle their work surface to suit their task, bringing ergonomic comfort and engagement into every lesson.

Birch lip to hold items when angled

Bag or T-square hook

Flexible Mobility

Equipped with smooth-rolling castor wheels, the Rise Up Desk is easy to move around the room—perfect for flexible setups, collaborative zones, or quick layout changes. Locking wheels ensure stability when the desk is in place.

Stacking & Storage

Designed with functionality in mind, the Rise Up Desk is lightweight and compact, making it easy to stack and store when not in use. Ideal for multipurpose learning environments, it allows classrooms to be reconfigured quickly and efficiently.

Flip Table

The ultimate table bringing flexibility, mobility and space-saving convenience and easy setup for quick use. This table combines functionality with aesthetic appeal, making it a practical addition to any of your learning spaces. With table tops made from solid natural European birch plywood.

Modesty Flip Table

Flip Table with Optional Modesty Panel adds an extra layer of privacy and comfort, flexible functionality for dynamic learning and meeting spaces. Designed with a smooth flip-top mechanism, it makes setting up or packing down effortless, while its space-saving design allows tables to nest closely together when not in use. Built from premium birch plywood, it brings a natural warmth and quality finish to any environment.

Stainless Steel Table

Stainless Steel Maker Space table on heavy duty castors. Can be customised to any size and height. Perfect solution to any STEAM or creative play environment. Designed to last for years to come.

Dimensions 1800 × 900 × 720 mm

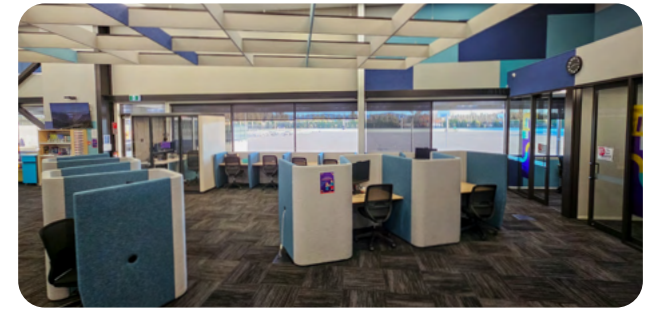

Wave Focus Booth

Wave Focus Booths with acoustic sides are designed to create an environment conducive to concentration and focus. By providing a physical barrier and sound-absorbing material, these desks help minimize distractions, allowing students to concentrate better on their tasks. The acoustic sides not only reduce noise but also offer a sense of privacy, enhancing the user's ability to stay on task and maintain focus in a busy classroom environment. These desks are an excellent solution for study areas where quiet and focused work is essential.

Contact us for custom fabric colour combinations.

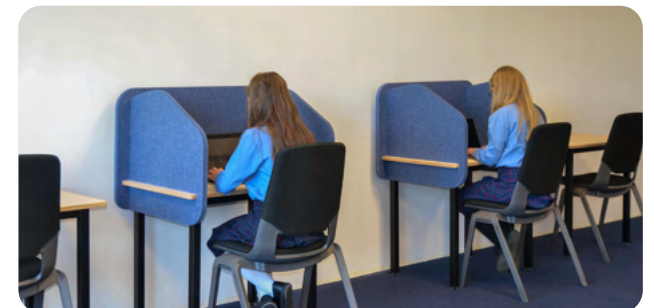

- Acoustic sound absorbing sides for individual learning
- Solid Birch Ply Table Top
- Multiple Colours available

Carrel Table

Carrel Table with acoustic panel sides. This table supports individual student work with a working desk space of 710mm x 570mm. Enabling the student to set themselves apart from their peers to focus in on the task at hand.

Made from solid Birch Ply HPL with 24mm acoustic panel sides, this combines aesthetics with functionality and durability. Pair this Table with our Starship, Ox, StudiChair chair or Tushy Cushy's for kneeling tables.

4D Chair + High Stool

The 4D Chair moves dynamically with the user for greater focus in the classroom. It features flexible movement and lumbar curvature. Available in multiple heights for ergonomic seating, ensuring the chair is correct for the user.

the 4D High Stool is perfect for MakerSpace, and science or Technology areas the 4D Stool moves dynamically with the user for greater focus. Available in two heights for ergonomic seating, ensuring the chair is correct for the user.

- Strong, steel sled base for ultimate stability
- One piece seat injection-moulded polypropylene for high durability
- Stackable

Mahi Chair

Mahi chairs are vibrant, mobile, and versatile, perfect for creating dynamic and functional spaces. These ergonomic and comfortable chairs are ideal for various environments, including educational, training, and conference settings, offering practical solutions for seating needs. Recycled materials are utilized in manufacturing. No PVC is used.

The mahi chair is built to support students and teaching staff and easy storage features to maximise the use of the learning spaces.

The easy folding design makes this chair quick and easy to store without straining to lift to stack them.

505 × 440 × 465 mm

Ako Chair + Ako High Chair

Designed for dynamic sitting, the Ako Swivel Chair features a revolutionary 3D tilt mechanism, mimicking the natural movement of a stability ball. This allows for unrestricted motion, engaging core muscles, improving posture, and enhancing focus.

The Ako High Swivel Chair offers the same benefits at an elevated height, ideal for standing desks and flexible workspaces.

- Sturdy handle for moving chair around. Also doubles as a coat or bag hanger.
- 3D Tilt mechanism Encourages movement and active sitting.
- Four seat colours to choose from
- Durable Five star white polypropylene N3 base. (100% recyclable)
- Seat Upholstery
- Available in a High Stool height - Perfect for standing desks and elevated workstations.

Active Stool

Semi-sitting stool specially designed to promote dynamic and active seating. The optimal support surface and rounded base allow the user to tilt and swivel in all directions while sitting. It is designed for interactive spaces such as, classrooms, studios and collaborative spaces.

Padded with EPDM closed-cell foam which features great air+UV resistance, shock absorption, and thermal insulation properties.

- 300mm Anti-slip rubber base for excellent floor grip
- Available in heights 310mm, 385mm, 460mm, 535mm
- Portable, light weight

Ox High Stool

Made from tough, high-density injection molded plastic with no joins, the smart-looking new Ox High Stool is durable enough to withstand years of classroom use. Available in natural new colours to match other LSG furniture. Stacks neatly to save storage space.

These stools are suited to our chillax tables. Work great in a collaborative learning space in the campfire setting.

650mm seat height. Suits 850H tables.

Ox Chair

Made from tough, high-density injection molded plastic with no joins, the smart-looking new Ox Chair is durable enough to withstand years of classroom use. Available in natural new colours to match other LSG furniture. Multiple sizes available to fit different student and table heights

- High density injection moulded plastic with no joints
- Posture friendly curved back support
Large air vent for breathability
- Off centre leg positioning to reduce rocking
- Stack neatly together to save storage space

Ox Linking Chair - Padded

The Ox Linking Padded Chair combines comfort and practicality in a sleek, classroom-ready design. Featuring a durable frame and a comfortably padded seat and backrest, it's built to handle daily use in busy learning environments. The clever linking system keeps chairs neatly aligned in rows, while the stackable design makes storage simple and efficient. Available in a range of natural tones to complement the rest of the LSG furniture collection.

Vantage Chair

The Vantage Chair is a sleek, stackable seating solution designed for modern learning and collaboration spaces. Its lightweight yet durable design features a comfortable plastic shell and optional padded seat, with added functionality for dynamic environments like classrooms, training rooms, and lecture halls.

Whether used individually or linked together, the Vantage Chair brings style, versatility, and space efficiency to every setting.

Features:

- Stackable for easy storage and flexible room setups
- Chair linking system for organised, rowed seating
- Compact footprint: W637 × D635 × H837mm

StudiChair

An elegant and ultra comfortable hard wearing chair designed for demanding, high use environments. Featuring a grey fibreglass-reinforced resin shell made from 100% recycled materials. Optional upholstered foam seat and (removable back) cushions are available for further comfort. Available in Wing or Full back 10+ colours.

'Ready link' Integrated space saving linking system creates neat, aligned rows that will always look great.

Stackable 10 high.
Trolley also available.

STORAGE + DISPLAY

Comfortable, nature-inspired seating for enhancing
focused learning environments.

GLIDE & TILT. TOTE-TRAY STORAGE SYSTEM.

The Glide & Tilt Tote-Tray Storage System by Learning Spaces Global (LSG) is a versatile, mobile storage solution designed to enhance organization and accessibility in educational environments. Crafted from solid European birch plywood with an eco-friendly UV finish, this unit combines durability with a natural aesthetic that complements any classroom setting.

Key Features

- **Dual-Access Glide & Tilt® Tray Runners:** Innovative design allows trays to glide smoothly and tilt forward, providing easy access to contents while preventing spills.
- **Flexible Tray Configuration:** Accommodates up to 9 double-depth or 18 single-depth TOTEx trays, or a custom combination to suit your storage needs.
- **Mobility:** Equipped with large castor wheels, including two with brakes, for effortless movement and secure positioning within the classroom.
- **Durable Construction:** Made from 18mm European birch plywood, ensuring long-lasting use and resistance to daily wear and tear.
- **Eco-Friendly Finish:** Finished with a durable, environmental UV coating that is safe for children and the environment.

 Trays can also be stored neatly on top of units. And tray runner system can also be supplied to your school's cabinet maker.

All units are 455mm wide.

585H (2-4 trays).

780H (3-6 trays).

970H (4-8 trays).

360L (1 bay).

705L (2 bay).

1050L (3bay).

1394L (4 bay).

Glide and Tilt® Tote-Tray System

Learningcurve tote-tray storage and display shelving are available in a range of three heights and four widths to suit all ages and storage spaces. European birch ply tote-tray storage unit with dual-access glide-and-tilt® system. Note: Tray runner system can also be supplied to your school's cabinet maker.

- Solid birch ply with; UV or HPL finish.
- Heavy duty design, premium look and feel
- Patented glide-and-tilt® tray runner system
- Modular design to create storage islands
- Large castor wheels (two braked)
- Also available with metal feet
- Registered design

TOTEX. EDUCATION TOTE-TRAY STORAGE RANGE

The TOTEx Tote-Trays by Learning Spaces Global (LSG) are designed to provide durable, safe, and versatile storage solutions for educational environments. Crafted from high-impact polystyrene (HIPS), these trays are 8 times stronger than standard plastic trays, ensuring longevity and resilience in busy classroom settings.

These tote-trays are designed to integrate seamlessly with LSG's storage units, offering a cohesive and efficient storage solution for classrooms. Their robust construction and thoughtful design make them an ideal choice for organizing educational materials and resources.

- Made from high-impact polystyrene (8× stronger than standard trays)
- Compatible with Glide-and-Tilt® runner system
- Available in single and double depths
- Offered in multiple pastel colors (including True Clear)
- Optional clear lids and internal organizers
- Smooth interior for easy cleaning
- Built-in front card holders and rear label areas

Plastic Storage Tote-Trays

Our glide and tilt® tray system runners hold trays securely in an open angled position when in use*. Glide and tilt® combined with shatterproof plastic to provide the safest storage trays available for the education environment.

Single Depth Trays: 310W x 420L x 77H
Double Depth Trays: 310W x 420L x 157H

i Two single depth trays take up the same space as one double depth tray.

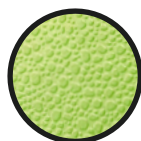

Glide and Tilt® Tote-Tray System

Trays can slide out from both sides of dual access units (tilt feature on front side only)

Surface for stickers

Back of tote-trays feature a stippled surface so you can add and easily remove your own large sticky labels

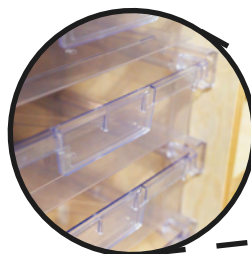

These are 8x stronger than standard plastic tote trays!

Made from 'super tuff shatterproof' high impact polystyrene (HIPS) which is 8x stronger than standard plastic trays

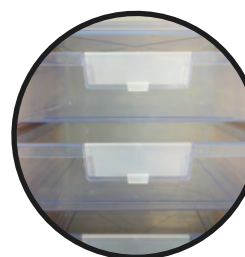

Easy Cleaning

Smooth internal surfaces for easy cleaning

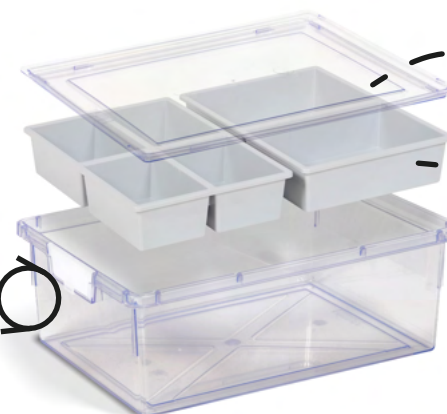

Truly Clear!

Seagrass Baskets

Made specifically to fit into any of our shelving units. Choose from our range of sizes for every application. Create that warm natural atmosphere your children and teachers love.

14200 Large Seagrass Basket

14201 Medium Seagrass Basket

14202 Small Seagrass Basket

180° and 90° Return Display Shelves

Combine with other Learningcurve units to create your own modular display islands. Add a 90° return unit to enhance an empty corner in your classroom. Great for adding extra storage and display area. Solid birch ply with; UV or HPL finish (see page 2410).

910L x 475W x 780H or
910L x 475W x 970H

475L x 455W x 780H or
475L x 455W x 970H

Activity Station

Add trays and baskets to organise your activity supplies in for a fast setup and easy clean up. Wheel this unit to and back out of your activity space as required. Fits up to 6 Learningcurve storage trays and 6 seagrass baskets (sold separately). Solid birch ply with; UV or HPL colour (see page 2410).

1050L x 455W x 780H or
1050L x 455W x 970H

Curved Display Shelves

Smooth curves add beauty to your classroom. Open backs add visibility for teachers, assisting with supervision. Combine with our other units to create cosy nooks and separated spaces for students to read and play.

1050L x 455W x 780H or
1050L x 455W x 970H

Open Display Shelving

Our LearningCurve open display shelf units take advantage of our registered design end panels. Which seamlessly incorporate a hidden structure that strengthens the unit to prevent these mobile units from lateral movement - without requiring a back panel to provide this necessary rigidity. Open backs increased light, airflow and provide dual access. Extra trays or baskets can be stored on the top shelf if required when ordered with our activity tray top. As shown below.

1050L x 455W x 780H or
1050L x 455W x 970H

1394L x 455W x 780H or
1394L x 455W x 970H

Custom shelving; open or solid back, tray top or flat top, castors or feet, natural grain or coloured laminate end panels.

Library Book Issue Desk

This desk features a sleek and modern design with a slat wood front, exuding an inviting and contemporary aesthetic. What makes this desk truly special is its ability to be customised to include your school logo to showcase its unique culture and identity. The plywood construction ensures durability and longevity, making it a reliable option for daily use. The spacious countertop and under-desk storage create an organised workspace for book transactions.

1460L x 715D x 615H

i Custom Engraving options available

Device Storage Station

European birch ply device storage unit with inbuilt charging for every device. Simply plug devices in, and plug the unit in to charge all devices at one time. This unit holds up to 24 devices.

705L x 455W x 1000H.

i Customisable to suit your required amount of devices.

Cube Shelving

Plywood cube library shelving for schools offers a durable and versatile storage solution. These shelving units, constructed from sturdy birch plywood, are designed to withstand the rigours of a school environment. The cube-shaped compartments provide ample space to organise books, textbooks, supplies, and other educational materials. The modular design allows for easy customisation, as the units can be stacked, arranged, or even combined to create larger shelving configurations to accommodate the needs of different classrooms or libraries.

Plywood cube library shelving not only promotes an organized and efficient learning environment but also adds a touch of aesthetic appeal with its natural wood grain or contrasted with HPL colours.

Single Plywood Cube Dimensions 420L x 420D x 420H

Double Plywood Cube Dimensions 840L x 420D x 420H

Book Display Tower

Avid readers rejoice! This sturdy and stylish display unit is a perfect solution for showcasing books that enhance the reading experience of young minds. Created with high-quality plywood, our tower offers great durability and a natural feel. Its compact design maximises space efficiency, making it ideal for classrooms, libraries, or common areas. The tower features multiple shelves, providing ample room to organise and display a wide range of books.

720L x 720W x 1500H

Curved Book Station

The design's gentle, curved lines make it perfect for promoting peacefulness in libraries and open learning spaces. Our curved book station will withstand the rigours of daily use while providing a natural and modern aesthetic. Its double-sided design maximises space and allows students to access books simultaneously on each side. Large shelves provide substantial storage and organisation of books and educational materials.

Double sided storage

1160L x 600W x 1140H

1160L x 600W x 1260H

Library Straight Shelving

This library shelving unit's double-sided design maximises storage capacity while optimising space utilisation. Each sturdy 18mm plywood shelf can accommodate a wide range of books, magazines, and other educational resources.

Double sided storage

Mobile Whiteboards – Double Sided

Double-sided mobile whiteboards are PROWITE™ surface options depending on your requirements. All mobiles are shipped unassembled to avoid transit damage, but are quick and easy to set-up with two people.

Available in four sizes:

- 1200W x 900H
- 1200 x 1200H
- 1500W x 1200H
- 1800W x 1200H

Mobile Divider Whiteboards - Birch Plywood

The Double-sided mobile whiteboard stands are a sturdy birch plywood construction. Large castors for better movement on carpet make it ideal for any classroom or office. When assembled, the units are 1950mm high and 570mm deep so they slip comfortably through doorways and move from room to room with ease. Clever design ensures these can also 'nest' together to save valuable space. Near-flat edges allow you push mobiles tight together for privacy.

Standard sizes:

- 1000W x 1800H
- 1200W x 1800H

PROWITE Whiteboards

Single sided mobile whiteboards are PROWITE™ surface. All are shipped unassembled to avoid transit damage, but are quick and easy to set-up with two people.

Available in four sizes:

- 1200W x 900H
- 1200 x 1200H
- 1500W x 1200H
- 1800W x 1200H
- 2200W x 1200H

FRONT OF CLASS UNITS

TEACHER DIRECTED LEARNING

Built to lead from the front. With dual sliding whiteboards and fully customisable storage, it keeps teaching tools tidy and close at hand. Made from premium Birch Plywood, it won't sag, bend, or warp, unlike particle board or MDF. Making it perfect for the heavy loads today's classrooms demand. Smart, strong, and ready for anything.

Whiteboard Wall Unit

Natural, Functional, Customisable

Thoughtfully designed to combine function with a calming aesthetic, the Whiteboard Wall Unit brings clarity, collaboration, and natural materials into the learning environment. Built from high-quality FSC-certified birch plywood, it offers a durable and low-toxicity solution that supports both traditional and progressive teaching approaches. Its clean design and writable surface encourage creativity, problem-solving, and interactive learning, while contributing to a warm, nature-connected space that enhances student well-being.

Customisable Layout and Design

Dimensions begin at - 2400L x 455W x 2000H mm, but offering a highly customisable layout to suit a wide range of classroom needs. From the configuration of the shelving behind the boards to the finishes, dimensions, and framing details, every element can be tailored to fit your learning environment. Whether you require additional storage, specific colour accents, or unique sizing to integrate seamlessly into your space, this unit can be adapted to align with both functional and aesthetic goals.

Birch HPL Material

Made from FSC-certified birch plywood with non-toxic UV finish and customisable high pressure laminate (HPL) panel colours available.

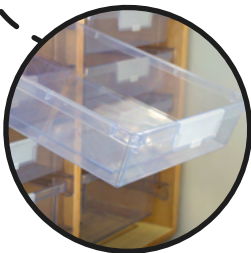

Rollable whiteboards with large storage behind

Whiteboard Surface

Multiple large writable PROWITE™ whiteboard material surface, perfect for teacher lead learning and student collaboration in the classroom

Glide and Tilt® Tote-Tray System

Glide and tilt® combined with shatterproof plastic to provide the safest storage trays available for the education environment.

PLAY BASED RANGE

Helping your new entrants ensure a smooth transition from their early learning years.

1785W x 1170H x 1010W (Made to fit on top of 2 x 3 bay LearningCurve units)

Kauri Cottage

The Kauri Cottage is completed configurable to suit your family play corner. The back wall is fitted with our Peggo® holes ready for attachments which can be changed as required. The large green leaves are made from acoustic foam to help reduce noise in your room. We have preassembled this so only minimal assembly is required once in a position to fix the cottage securely together.

*Kitchen unit sold separately

Each unit is:
1200L x 600W x 1235H

Art and Craft Trolley

This now features a paint pot and scissor tray which can easily be lifted out to place in the centre of your art table. Also features straight shelves to hold your paper or smaller crafts and models. LearningCurve art and craft display trolley station. High capacity unit. Ideal for setting up an inspiring art and craft space to spark creative little learners. Sit back and watch as children of all ages access (and return!) their own art and craft supplies with ease.

1050L x 455W x 780H

Glue Gun Station

Purpose built for hot glue gun fun! Students love learning to work with hot glue, and to cater for developing motor skills we have protected the working surface from excess glue with a hard-wearing acrylic surface. Add baskets or trays to organise your craft supplies in for a fast setup and easy clean up. Wheel this unit to and back out of your art and craft space as required. Trays and baskets sold separately.

1050L x 455W x 780H

Splash Lego Table

Our Splash Lego table features compartments in the centre of the table for the children's Lego, pencils and other resources. The table cutouts create a more individualized work space for each child, encouraging them to work together on group tasks. This modern, curved design provides a softer, more inviting atmosphere than the traditional classroom comprising only straight lines.

Made from 18mm Birch Plywood HPL; combines aesthetics with functionality (easy clean) and durability. Guaranteed to fit into your environment and last for years to come.

Available with adjustable or fixed metal legs/frame.

1500L x 1200W

Science Station

Ideal display cabinet for all your special collections of art and craft, experiments, fragile display items, and science study. All in one tidy mobile unit, this furniture piece will enhance your learning space immediately. Practical and safe to use, a teachers favourite! Trays and baskets sold separately.

1050L x 455W x 780H

Lockable back door

Light Box Station

Students love learning about how colours mix together and seeing different objects illuminated in imaginative and unusual ways. Great for translucent materials, creating silhouettes from solid objects or tracing around interesting shapes and patterns. Mobile on wheels, this unit can be easily moved around the classroom.

705L x 455W x 585H

- Lit with long-life LEDs that use 90% less power and do not get hot

Acoustic Foam Panel

Enhance your learning, or collaboration space with the Premium Acoustic Egg Crate Foam Panel. Designed to reduce noise and improve sound clarity, this high-performance panel features a self-adhesive backing for easy, mess-free installation, no glue required.

It is perfect for noisy environments and helps create a quieter, more focused atmosphere for studying brainstorming, or group work. The high-density foam absorbs sound efficiently, optimizing acoustics for better communication and concentration.

Features:

- Self-Adhesive Backing: No glue or extra materials are needed.
- Easy Installation: Peel and stick for an instant upgrade to your space.
- Acoustic Treatment: Reduces noise and improves sound clarity.
- Versatile Use: Ideal for studios, offices, or home theatres.

Acoustic Ceiling Tile

Our High-Performance Acoustic Ceiling Tile elevates the comfort and functionality of any space. It enhances learning environments by reducing noise with excellent sound absorption. Made from glass wool, it's lightweight, hygienic and resistant to mould. It is designed to perform in diverse conditions and meets Fire Test Group-1S safety standards, making it ideal for classrooms and educational spaces.

Features:

- High-performing acoustic tile
- Monolithic pre-finished face tile
- Suitable for digital printing
- Ideal for all suspended ceiling grid systems
- Recommended for all ceiling interior applications including offices, education and healthcare
- For Green Star-rated projects, meets the Greenguard Emission Certificate standard.

Mobile Acoustic Divider

Our Mobile Acoustic Panel Divider features a birch plywood base, durable castor wheels, and an acoustic panel for noise reduction. Its modular design offers flexibility, making it ideal for dynamic learning and meeting spaces. The sturdy frame ensures easy mobility and seamless integration into any environment.

Features:

- Acoustic panel for noise reduction
- Birch plywood base for durability
- Castor wheels for easy mobility
- Modular design for flexible space usage
- Ideal for learning and meeting environments
- Modern and functional design

OUTDOORS

Comfortable, nature-inspired seating for enhancing focused learning environments.

Outclass

OUTDOOR LEARNING ENVIRONMENTS

ENHANCE YOUR OUTDOOR LEARNING SPACES

Create a safe space for students to study, collaborate and feel secure with these fully furnished customisable outclass packages. Built and delivered to anywhere in your school grounds, these classrooms simply unfold and you are ready to go.

Customisable Outclass Packages: Fully furnished packages delivered onsite for easy setup, providing immediate functionality.

Neurodiverse Safe Spaces: Tailored sensory rooms within outclass hubs offer calming environments for neurodivergent students to self-regulate and seek support.

Outdoor Learning Environment (OLE): Equipped with weather protection and storage, OLE promotes outdoor classes, fostering creativity and a refreshing change of pace.

Attendance Boosting: Offering alternative teaching locations, particularly crucial post-pandemic, to improve student engagement and attendance rates.

LOOSE PARTS PLAY

When children interact with loose parts, they enter a whole new realm of probability. A world where anything is possible and an environment of positive creative thinking, problem-solving and theoretical reasoning. Loose parts enhance children's physical and cognitive development and give them the ability to see solutions and feel a sense of adventure and excitement in their play.

Features

- Marine Grade Plywood - Boxes and Towers
- FSC Certified Solid Pine- Ball run and Connector planks
- Designed to be stored away after use - not intended for extended use in and around moisture
- Safe non-toxic Bio oil finish
- Arrives fully assembled ready to play
- Enhances children's physical and mental development
- Moveable for flexible learning environments
- Sets sizes available from 36pcs to 235pc.

Assembly- No assembly required.. comes ready to go!

NOTE: Loose Parts sets are designed for dry weather conditions, and are to be stored away after use. These parts will deteriorate if left outdoors.

Outdorable Loose Parts Ball Run Package - 95 Pcs

Our Outdorable Loose Parts Ball Run Package 95pc has been thoughtfully designed to give you an even greater range of configurable pieces for children to explore and create with. This expanded giant ball run set offers endless possibilities for hours of outdoor loose parts fun. Watch as children's imaginations take off, experimenting with new ways to run balls across the playground and building ever-more inventive designs.

Outdorable Loose Parts Ball Run Package - 235 Pcs

Outdorable Loose Parts Ball Run Package 235pc has over 50 meters of configurable ball run, potentially bringing you the longest ball run in your town! This package brings you the best range of configurable loose parts for children to play with. Provides all you need for hours of loose parts fun outdoors. Watch the children's imagination go wild as they figure out different ways to run the balls all over the playground. Use the slots in the wooden towers, along with buckets, sandbags, and connector planks along with whatever else they can gather up from your collection of loose parts.

OUTDOOR GAMES

Cornhole Set

The game's simple rules and easy setup make it accessible to students of all ages and skill levels. Wooden cornhole boards specifically designed for school use are typically durable and built to withstand frequent use. They can be customized with the school's logo or colours, adding a sense of pride and school spirit to the game.

Playing cornhole at school not only provides a recreational outlet but also encourages teamwork, hand-eye coordination, and strategic thinking. It promotes friendly competition, fosters social interaction, and helps create a sense of community among students.

220L x 610W x 305H
8 Cornhole Sacks (4 of each colour)

Giant Connect 4

This is the perfect outdoor game for lunchtime activity and competitions. Or wheeled into the classroom for rainy day play. An entertaining game, providing a stimulating experience for players of any age. The oversized design makes it an eye-catching addition to any outdoor space and will provide hours of entertainment while promoting mind development through strategic thinking to win the game.

The mobile design of our Giant Connect 4 makes it easy to move around and store away. We mounted the game on sturdy castor wheels, which allows you to move it to different locations, whether on the grass, pavement or decking area. When it's time to put the game away, you can easily store it in a corner or a closet, saving valuable space.

Made from premium Marine grade plywood, this game is built to withstand the elements and last for years to come.

1155L x 420W x 1170H

Rope and Ball

Endless fun with this Rope & Ball game. Made from Outdoor plywood and heavy duty construction, this game will challenge and increase motor skills for any young learners.

800W x 180D x 1500H

Hand Washing Troughs

One of the most proven and effective methods to reduce the spread of viruses and nasty diseases is to your hands! Simple? Yes, at home, but as you will be aware, this is not so simple in our ECE and School environments. Global surveys have discovered that many primary schools only have one sink per classroom. The Ministry of Health requirements is to wash hands with soap for 20 seconds, then dry hands all over for 20 seconds. With some classes having up to 30 students, this has the potential to take the entire morning break to meet the protocol. Boost your hand wash capacity with our purpose-built fully integrated hand wash stations which can be positioned where needed around the school.

FEATURES

- Made for commercial use in education environments
- Timed flow mixer taps enable warm water to be safely dispensed without wasting water
- Stainless steel sink and soap dispenser/s
- Sink can be installed at age appropriate heights

Two Bay 1200L x 380D x 600H (including soap dispenser)

Four Bay 1800L x 430D x 600H (including soap dispensers)
