ACOUSTIC LEARNING TREE

ELEVATING BIOPHILIC DESIGN

Enhance your space, create a calming haven
for people to study, learn and feel secure.

ABOUT TREEDOM

Here is our acknowledgment of trees and the great outdoors. Think shade on a hot summer's day, fresh tree-ripened fruit, a picnic on the riverside, or reading your favorite book under the green canopy as it dances in the gentle breeze. While our leaves won't rustle and sway gently in the breeze, they will bring these calming experiences right into your learning spaces, collaboration zones, or public meeting spaces.

These perfectly designed and crafted Treedom Acoustic Learning Trees is exactly what you need for your students, customers, and colleagues to feel the power of nature indoors. Made from quality European birch plywood combined with a sound-absorbing acoustic felt, this centerpiece will certainly assist in reducing the noisy clatter of any open and flexible learning environment. And with its flowing curves and acoustic leaves, this free-standing tree creates a calming and safe place for the imagination and focus to flourish.

Studies by psychologists have shown that being surrounded by nature, such as plants and trees, in your workspace can increase well-being by 47%, creativity by 45%, and productivity by 38%.

Designed for enhancing these spaces and more:

- **Libraires:** Provides a peaceful, sound-dampened space for reading, studying, and deep focus.
- **Classrooms:** Creates a quieter, more focused learning environment, helping students stay engaged and attentive.
- **Collaboration spaces:** Reduces background noise, supporting clearer communication and creative teamwork.
- **Waiting Areas:** Adds a calming, nature-inspired element to ease stress and create a welcoming atmosphere.
- **Airports:** Softens the busy, high-traffic environment, offering travelers a moment of tranquility.
- **Shopping Malls:** Enhances the shopping experience by providing a visually engaging and acoustically comfortable retreat.

THE ACOUSTIC LEARNING TREE

The Acoustic Learning Tree is a free-standing centerpiece crafted from natural European birch plywood, merging nature-inspired design with functionality. Its curved wooden branches with soft, green acoustic leaves absorb noise, creating a peaceful environment. A built-in upholstered seat with storage compartments below offers comfort and practicality. Available in four configurations, it is perfect for classrooms, libraries, and collaborative spaces, promoting focus, creativity, and well-being.

Established Learning and wellness benefits include;

Biophilic Tree design brings the outdoors indoors to enhance the natural learning environment and helps children connect with our natural surroundings.

Woven to precise specifications with high abrasion standards, repels stains for easy clean, highly durable, heavy commercial rub resistant fabric. Fire rated to AS/NZS 15-30.3

Strong and Durable European birch plywood construction, perfect for high-use environments

Encourages a greater sense of wellness and calmness amidst overstimulated environments and spaces.

This tree comes with our most popular BEECH LEAVES in a soft green acoustic foam. But ask our team if you wish to customise these leaves to suit your own learning theme.

Reduces harsh noises from reverberation around the large open spaces, ideal for quiet zones, ILE areas, libraries, and collaboration spaces.

Increases warmth and natural atmosphere in learning spaces to help children feel more inclusive.

The Acoustic Learning Tree comes in quarter, half, three-quarter and full circle configurations. Custom configurations also available, talk with our Freedom team to find out more.

ACOUSTIC LEAVES

A signature feature on every Treedom Tree, our acoustic leaves are designed to soften sound while creating a calming visual statement.

Made from high-performance acoustic felt, they help absorb unwanted noise and reduce reverberation. Making learning spaces and working environments feel quieter and calmer.

WHY ACOUSTICS?

Reducing reverberation around the large open spaces, improving speech clarity and concentration.

More than just a feature, Treedom brings the calming presence of trees indoors.

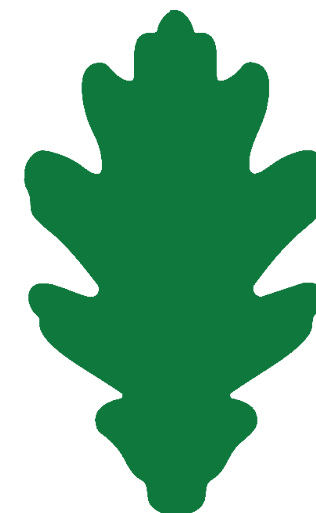

Every tree is manufactured to order, custom your leaf shape, custom colours also available.

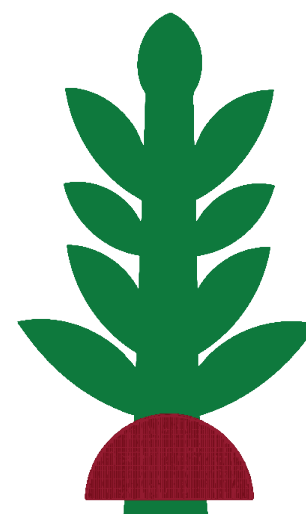

Ideal for open spaces to create quieter zones in ILE areas, libraries, and collaboration spaces.
